Education & Credentials

UPM UNIVERSITY — Kuala Lumpur, Malaysia

Post-Graduate Certificate in Computer Science, 2013

ISLAMIC AZAD UNIVERSITY — Khoozestan, Iran

BS in Computer Software Engineering, 2008

SOFTWARE TEST IN ENGINEER

Expert in Automated Testing

❖ **Sahab Pardaz | October, 22, 2019 - now**

- o Developed fully automated Chaos engineering (resiliency) tests
- o Run chaos tests on highly scaled distributed system to challenge High Availability of product
 - Infection in three levels:
 - infrastructure like hardware resources
 - Software platforms like Hadoop, Kafka and Hbase
 - Application level which is highest level of product

❖ **Sahab Pardaz | January, 05, 2019 – October, 22, 2019**

- o Automated test environment provisioning
- o Helped product manager to define test requirements
- o Validated Test requirements using Required test mapping with Redmine project management tool

❖ **Sahab Pardaz | June, 11, 2016 – October, 22, 2019**

- o Developed software test infrastructures for testing a large scale distributed system

- o Developed test automation tools

❖ **Bontech Holding | September, 23, 2013 Until June, 11, 2016**

- o Developed test scenarios and categorized tests (unit test, integration test, ...) in test suites
- o Developed Jenkins (continuous Integration tool) in order to have fully automated pipeline

Skills Summary

- | | | |
|--|---------------------------------|-------------------------|
| ❖ CI/CD Setup with Gitlab-runner and Jenkins | ❖ SQA Testing & Methodologies | ❖ Defect / Bug Tracking |
| | ❖ Test Plans, Cases & Processes | ❖ Regression Testing |
| ❖ Chaos Engineering | ❖ Requirements Management | ❖ Non-Functional Tests |
| ❖ Automated Big Data Testing | ❖ Scripting & Documentation | |

Technology Skills

Programming language (Expert in test engineering concepts): Python, Java

DevOps Tools (Expert): Ansible, Docker

Continuous Delivery/Deployment (Expert): Jenkins, Gitlab-runner

Project Management tools (Expert): Redmine, JIRA

Big Data Tools (Familiar): Kafka, HBase

Java Build Tools (Familiar): Maven

Software Development Methodologies (Very good): Agile

Frameworks (Very good): Junit, web.py

Also know about: RESTful Webservices

LANGUAGES

IELTS ACADEMIC CERTIFICATION

6.0 Overall
