Education & Credentials

UPM UNIVERSITY — Kuala Lumpur, Malaysia

Post-Graduate Certificate in Computer Science, 2011 - 2013

ISLAMIC AZAD UNIVERSITY — Khoozestan, Iran

BS in Computer Software Engineering, January, 2006 – September, 2008

S O F T W A R E   T E S T   E N G I N E E R

Expert in Automated Testing

❖ **Sahab Pardaz**

o **Chaos Engineer | October, 22, 2019 - now**

▪ Developed fully automated Chaos engineering (resiliency) tests

▪ Run chaos tests on highly scaled distributed system to challenge High Availability of product

- Infection in three levels:

o infrastructure like hardware resources

o Software platforms like Hadoop, Kafka and HBase

o Application level which is highest level of product

o **Software Test Engineer | January, 05, 2019 – October, 22, 2019**

▪ Automated test environment provisioning

▪ Helped product manager to define test requirements

▪ Validated Test requirements using Required test mapping with project management tools

- o **Software Test Engineer | June, 11, 2016 – October, 22, 2019**
  - ▪ Developed software test infrastructures for testing a large scale distributed system
  - ▪ Developed test automation tools

- ❖ **Bontech Holding | September, 23, 2013 Until June, 10, 2016**
  - o Developed test scenarios and categorized tests (unit test, integration test, …) in test suites
  - o Developed Jenkins (continuous Integration tool) in order to have fully automated pipeline

---

Skills Summary

- ❖ CI/CD Setup with Gitlab-runner and Jenkins
- ❖ Chaos Engineering
- ❖ Automated Big Data Testing

- ❖ SQA Testing & Methodologies
- ❖ Test Plans, Cases & Processes
- ❖ Requirements Management
- ❖ Scripting & Documentation

- ❖ Defect / Bug Tracking
- ❖ Regression Testing
- ❖ Non-Functional Tests

Technology Skills

Programming language (Expert in test engineering concepts): Python, Java

DevOps Tools (Expert): Ansible, Docker

Continuous Delivery/Deployment (Expert): Jenkins, Gitlab-runner

Project Management tools (Expert): Redmine, JIRA

Big Data Tools (Familiar): Kafka, HBase

Java Build Tools (Familiar): Maven

Software Development Methodologies (Very good): Agile

Frameworks (Very good): Junit, web.py

Also know about: RESTful Webservices

CERTIFICATES
